“INVITATION to students and their Parents/Guardians to visit our Campus”

Students desiring to pursue MBA Programme are faced with the problem of making the right choice on a Business School. In fact B-School rankings are mainly intended to help students in this regard. Instead of helping, they have been confusing the students. GITAM School *of* International Business (GSIB) appreciates students' problem to make the right choice of the Business School, and believes that students should have the opportunity to visit the Business School to interact with dean, faculty, students in the school and examine infrastructure and other opportunities available in the school to acquire knowledge, skills, and managerial behavior important to work in the corporate world. It is believed that students then would be able to take an informed choice. GSIB therefore invites students to visit the School for the above purpose. However students are requested to contact Prof M.Subramanyam Chairperson: Admissions Committee for the necessary appointment and arrangement. He can be reached at
